

MariFlex MSP-700

Hydraulic driven portable pump

MariFlex development, manufacturing, sales, rental and repair of off-loading equipment/systems.

As a specialist in service and repairs, MariFlex has a very comprehensive selection of pumps, powerpacks and other equipment available for sale or rent, specially designed and purpose-built for the transshipment of liquid cargoes.

MariFlex can offer you equipment ranging from complete standard portable pumping installations to custom made turn-key marine equipment.

Upon request, MariFlex designs and builds special pumps, powerpacks and other equipment, according to internationally recognised standards and guidelines.

MariFlex MSP-700

- Design: single stage centrifugal
- 316 L impeller
- 316 L or seawater composite resistant Aluminum casing
- High capacity (up to 730 m³ / hr / 3218 Gpm.)
- Simple 4 component design
- Easy parts and maintenance
- Boosterpump
- Foodstuff, Molasses, fuel oil, salvage, etc

MariFlex MSP-700

Hydraulic driven portable pump

Specifications: MariFlex MSP-700

Design	: Single stage centrifugal.
Capacity/head	: 700 m ³ /hr - 10 mwc.
Viscosity/Specific gravity	: 1.0 Cst. at 20 degr. / 1.0.
Power consumption	: 149 Kw maximum.
Materials casing	: Seawater resistant Aluminum
impeller	: Stainless steel AISI 316 L
Hydraulic motor	: Built in, axial plunger. Hydromatik A2FM-125.
Hydraulic pressure	: 320 bar maximum.
Hydraulic oil flow	: 280 l/min. maximum.
Discharge connection	: 6 inch - 150 mm.
Height	: 480 mm.
Weight excluding hoses	: 80 Kgs.
